## Introduction

Since 2014 Future Proof Health has supported primary care in Dudley and the wider Black Country. We remain wholly owned by General Practice and are IGSoC and CQC approved. Our Board is made up of GPs and Practice managers.

We believe strongly that continued professional development is essential to maintain an up-to-date knowledge and a first-class service for patients. In Dudley Future Proof Health has operated the CEPN (Community Education Provider Network) which later transformed into the Dudley Training Hub. We have from inception provided both face to face courses and online courses and educational events. With the onset of Covid 19 we transferred all educational services to online. We look forward to resuming face to face services in a safe environment soon.

Over the last 3 years we have provided more than 5,350 places for education sessions for primary care in Dudley and the wider Black Country. We have monitored the quality and value of our educational services and we regularly review feedback from our services. We are delighted that this has been consistently positive with courses rated very highly by attendees.

Future Proof Health has been able to support the PCNs in their ongoing development. We have provided education and supported the PCNs with services and employment of staff required for effective PCN operation. We also worked in the Covid 19 vaccination programme and arranged bespoke training for all Black Country staff to support this.

We are an award-winning service winning the NHSX national award for our Oximetry at home service whilst we were running a dedicated COVID-19 Red Centre during the pandemic. We have also won Dudley Integrated Health & Social Care Trusts innovation team of the year for our work in providing the Extended Access Service. We were also awarded the freedom the Dudley Borough by the Lord Mayor. In addition to this we have been nominated for two additional national awards for our work in the Extended Access Hub service.

Our focus remains the support of primary care and education in providing the best possible care for the patients at the centre of all we strive to achieve.

## Promotional Videos

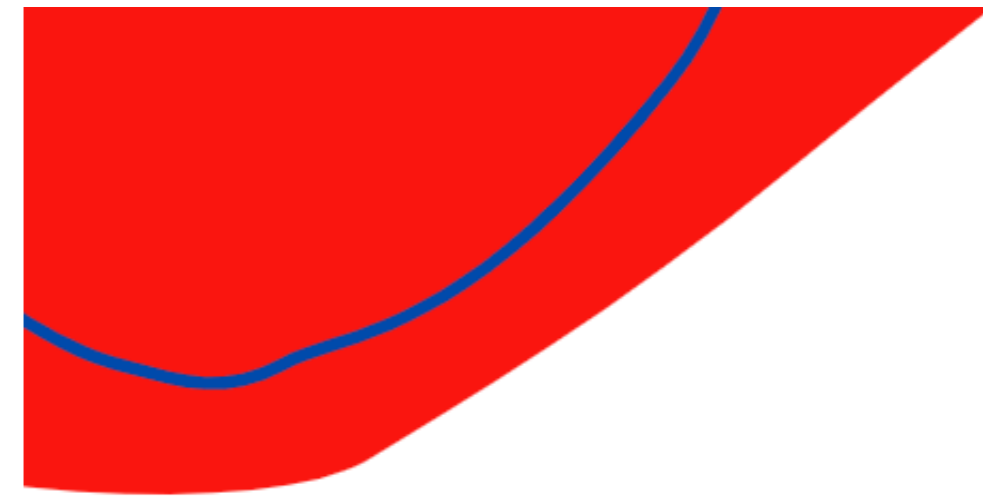

Back in 2019, we worked with the wonderful Doreen Tipton  
We worked together on creating videos to deliver information about  
the flu jab and asthma inhaler technique.

To view the videos and the photos from the evening  
please [click here](#)

Our nurse facilitator and Queens Nurse, Jayne Marie also worked  
with Redmoor Health to deliver a child friendly cartoon on Inhalers  
and how to control asthma.

## RCN Black Country Learning Event: Diabetes series - module 1

**Date:** Wednesday 7 July 2021

**Time:** 9.30am – 11am

This session is the first in a series of six modules focusing on diabetes, hosted by RCN Black Country RCN Branch and supported by Futureproof Health, with training delivered by Heather Daly, Independent Nurse Consultant in Diabetes.

### **Module 1: The beginning of the road - diabetes overview**

This first session will cover the basics of glycaemic control and diabetes, and will include guidance on making the correct diagnosis. By the end of the session, attendees will be able to:

- Define Type 1 and Type 2 diabetes
- Explain how glucose is used in the body
- Explain how blood glucose levels are regulated by the pancreas, liver, kidneys, and intestines
- Explain the role of insulin in glucose regulation
- Identify the difference between a pre-diabetic, T1 and T2 patient with diabetes

The event is being held on Microsoft Teams – to book your place, please visit [www.rcn.org.uk/westmidlands/westmidlands-events](http://www.rcn.org.uk/westmidlands/westmidlands-events)

## RCN Black Country Learning Event: Diabetes series - module 2

**Date:** Wednesday 4 August 2021

**Time:** 9.30am – 11am

This session is the first in a series of six modules focusing on diabetes, hosted by RCN Black Country RCN Branch and supported by Futureproof Health, with training delivered by Heather Daly, Independent Nurse Consultant in Diabetes.

### **Module 2: Finding the correct path - making the diagnosis of diabetes**

This session will cover the management of Type 2 Diabetes, including glycaemic control, information on treatment guidelines and information on lifestyle changes.

By the end of the session, attendees will:

- be familiar with ADA/EASD diagnostic criteria for Type 2 diabetes
- be able to the importance of maintaining glycaemic control
- understand the diagnostic measures
- understand the implications of lifestyle changes

The event is being held on Microsoft Teams – to book your place, please visit [www.rcn.org.uk/westmidlands/westmidlands-events](http://www.rcn.org.uk/westmidlands/westmidlands-events)

## RCN Black Country Learning Event: Diabetes series - module 3

**Date:** Wednesday 8 September 2021

**Time:** 9.30am – 11am

This session is the first in a series of six modules focusing on diabetes, hosted by RCN Black Country RCN Branch and supported by Futureproof Health, with training delivered by Heather Daly, Independent Nurse Consultant in Diabetes.

### **Module 3: Route options - what are the treatment options for diabetes?**

This session will give an overview of the treatment options for diabetes, including an examination of how each drug class works, covering oral/injectables and their advantages and disadvantages.

It will explore main classes of oral antidiabetic drugs and explain their mode of action, advantages and disadvantages, and then do the same for the main types of injectable antidiabetic drugs.

The event is being held on Microsoft Teams – to book your place, please visit [www.rcn.org.uk/westmidlands/westmidlands-events](http://www.rcn.org.uk/westmidlands/westmidlands-events)

## **RCN Black Country Learning Event: Diabetes series - module 4**

**Date:** Wednesday 6 October 2021

**Time:** 9.30am – 11am

This session is the fourth in a series of six modules focusing on diabetes, hosted by RCN Black Country Branch and supported by Futureproof Health, with training delivered by Heather Daly, Independent Nurse Consultant in Diabetes. Each session is a standalone learning opportunity - you do not have to have attended the previous modules to attend this one.

### **Module 4: Right drug, right patient, right time - pharmacotherapy options for Type 2 diabetes**

This session will give an update on the management of Type 2 diabetes and include guidance on when to use the right class of drug.

It will also examine clinical considerations, help attendees understand the impact of clinical inertia, and explore how to identify the appropriate treatment option for individual patients.

The event is being held on Microsoft Teams – to book your place, please visit [www.rcn.org.uk/westmidlands/westmidlands-events](http://www.rcn.org.uk/westmidlands/westmidlands-events)

## **RCN Black Country Learning Event: Diabetes series - module 5**

**Date:** Wednesday 10 November 2021

**Time:** 9.30am – 12pm (event incorporates branch AGM)

This session is the fifth in a series of six modules focusing on diabetes, hosted by RCN Black Country Branch and supported by Futureproof Health, with training delivered by Heather Daly, Independent Nurse Consultant in Diabetes. Each session is a standalone learning opportunity - you do not have to have attended the previous modules to attend this one.

### **Module 5: Obstacles en route in the care of patients with Type 2 Diabetes - comorbidities and complications**

This session will give attendees an understanding of the comorbidities associated with Type 2 Diabetes and the impact of a diagnosis on the patient and their family.

It will also help them understand the complications and impact of Type 2 diabetes, including further conditions we are trying to avoid such as retinopathy, neuropathy, nephropathy, cerebrovascular events and cardiovascular events.

The event is being held on Microsoft Teams – to book your place, please visit [www.rcn.org.uk/westmidlands/westmidlands-events](http://www.rcn.org.uk/westmidlands/westmidlands-events)

## **RCN Black Country Learning Event: Diabetes series - module 6**

**Date:** Wednesday 8 December 2021

**Time:** 9.30am – 11am

This session is the final session in a series of six modules focusing on diabetes, hosted by RCN Black Country Branch and supported by Futureproof Health, with training delivered by Heather Daly, Independent Nurse Consultant in Diabetes. Each session is a standalone learning opportunity - you do not have to have attended the previous modules to attend this one.

### **Module 6: Diabetic review - getting it right from the start and looking at the complete journey**

This session will explore how to ensure all aspects of care are met and how to implement shared care and planning, with the aim of giving attendees a clear understanding of the on-going shared responsibilities for diabetes care.

The event is being held on Microsoft Teams – to book your place, please visit

[www.rcn.org.uk/westmidlands/westmidlands-events](http://www.rcn.org.uk/westmidlands/westmidlands-events)

## **RCN LLEs**

We have been working with the RCN which are the largest union with 465,000 allied health care professionals. There was 6 pathways planned and had over 100 attendees per session.

## Diabetes NG28 - Simplifying the recovery of cardio

We worked with AstraZeneca as part of a on-going diabetes series with Dr Ruth Tapparo and Amelia Cook. We ran 1 session delivered by Professor Vinod Patel.

There were 130 places available

We had positive feedback from those sessions:  
“Excellent”

To view the feedback please [click here](#)

## **DIABETES NG28 - SIMPLIFYING THE RECOVERY OF CARDIO RENAL METABOLIC DISEASE MANAGEMENT - A PRACTICAL APPROACH**

**PLANNED DIABETES TRAINING SESSIONS BY DR RUTH TAPPARO AND AMELIA COOK**

**Thursday 10th November**

**6.30 pm - 8.30 pm / DY1 Community Centre, Stafford St, Dudley DY1 1SA**

**THIS IS A HYBRID SESSION**

**6.30 pm - 7.15 pm - Networking & Hot food on arrival**

**Virtual start time at 7.15 pm**

**Delivered by Professor Vinod Patel**

Dr. Vinod Patel is Consultant Physician in Endocrinology and Diabetes at George Eliot hospital, NHS Trust in Nuneaton, Warwickshire. He is also an Honorary Senior Lecturer in Medicine at the University of Warwick, now part of the Leicester Warwick Medical School. His main interests are in the prevention of diabetes complications. He trained in Endocrinology and Diabetes at Hammersmith hospital and the Royal London hospitals. He obtained a MD Doctorate in Haemodynamic Factors in the Pathogenesis of Diabetic Retinopathy from the University of London and has multiple papers arising from the work.

This session will recap on the changes in NG28 and look at some of the evidence base behind the new approaches for the management of diabetes.

We will look at the practical implementation in managing Cardio-Renal Metabolic disease using case studies to bed the learnings. Overall objective is to increase confidence in NG28 and early management of patients in primary care helping to avoid unplanned admissions.

This training will directly support the Black Country ICB plans for developing primary care's LTC pathways

**This session will be interactive and will be face-to-face as well as online. There is a limited number of face-to-face places so please only book the face-to-face if can attend.**
